# Task Tour 13a:  The Internet  -- with Firefox as your default browser (recommended)

Bring up Web sites; click links; move among screens, pages and tabs; select text; search; and type into forms.

Say commands in order, making sure to watch what happens between commands. Pause at any " · " to go step-by-step. Say "UC Lesson" or "UC Full" followed by a lookup number for command details (for example, **"UC Lesson 2 Point 1 5"**).

IMPORTANT: Firefox with the Mouseless Browsing add-on is required for this tour -- see **UC Intro 2.3**.

| Say these commands in order | This is what will happen | Lookup |
|---|---|---|
| **Speech On** | Turns the asleep (yellow) microphone on | **1.1** |
| **Redstart Systems Site** | Opens Firefox to the Redstart Systems site | **9.1** |
| (If necessary **Control Insert**) | Toggles link numbers -- they should be showing | **9.3 (6.9)** |
| **8 Go** | Clicks link 8, which brings you to a list of UC Commands | **9.3** |
| **Screen 2** (or **40 Down**) | Shows the second screen's-worth of information | **7.3** |
| **Screen 1** (or **40 Up**) | Shows the first screen's-worth of information | **7.3** |
| **12 Go** | Clicks link 12: Resources | **9.3** |
| **Go Bottom** | Moves the cursor to the bottom of the page | **9.5** |
| **40 Up** | Moves the cursor up 40 lines or more (system/browser settings) | **6.6** |
| **15 Go** | Clicks link 15: Request a Feature | **9.3** |
| **Go Back** | Goes back one page to the Resources page | **9.5** |
| **2 Back** | Goes back two pages to the Redstart Systems homepage | **9.5** |
| **New York Times Site** | Opens the New York Times site | **9.1** |
| **Amazon Site** | Opens the Amazon site | **9.1** |
| **Google Site** | Opens the Google site | **9.1** |
| (Skip next 4 commands if you're not using Tabs -- see **UC Lesson 9.5** for details | | |
| **Tab Forward** | Moves right one Tab to Redstart Systems site | **9.5** |
| **2 Tab Forward** | Moves right two more tabs to the Amazon site | **9.5** |
| **Tab Back** | Moves left one tab to the New York Times site | **9.5** |
| **Document Close**) | Closes the New York Times tab | **9.5** |
| **Window Close** | Closes the browser | **2.3** |
| **Washington Post Search** | Opens the Google site and enters the code to narrow the search to the Washington Post site. | **9.7** |
| (Wait for Google site with Washington Post search code to appear) | | |
| **Grasshoppers** | Adds "grasshoppers" to the text in the search box | **1.2** |
| **Enter** | Hits Enter to return a list of pages from the Washington Post site that contain "grasshoppers" | **6.1** |
| **Rulers Open** | Puts rulers around your screen | **2.5** |
| (**Function 7**) | Toggles arrow/screen commands from scrollbar to text so "Word" and "Lines" commands work properly (*UC Lesson 9* p. 27) | **9.6** **4.9** |
| **15 By 45 Word** (adjust numbers to click text rather than a link) | Places and clicks the mouse, then selects the nearest word | |
| **This Dictionary Search** | Opens Google, types selected Word followed by "site: dictionary. com site", hits Enter to do search narrowed to the Dictionary site | **9.7** |
| **Top 9 Down · 10 Downs** (or **15 By 28 · 10 Lines**) | Moves cursor 9 lines down from top, selects 10 lines (or clicks mouse at beginning of selection, then selects 10 lines) | **7.20** (or **4.9**) |
| **Function 7** | Toggles arrow/screen commands from text to scrollbar | |
| **10 Down** | Moves the scroll bar down | **9.6** |
| **UC Make** | Brings up the UC "Make a Comment" page | **6.6** |
| **31 Go** (or **50 By 70**) | Puts the cursor in the Comment field | **1.6** |
